Education

Bachelor of Science in Mathematics

Toronto Metropolitan University | Expected 2026

Skills

Mathematics: Calculus, Linear Algebra, Statistics, Differential Equations

Programming: Python, R, JavaScript, TypeScript

Data Analysis: Pandas, NumPy, D3.js

Machine Learning: TensorFlow, Scikit-learn

Tools: Git, LaTeX, MATLAB

Experience

Research Assistant

Mathematics Department | 2024 - Present

• Assist in mathematical data analysis and visualization

• Contribute to statistical research projects

Web Developer Intern

Tech Company | Summer 2024

• Developed web applications using React and TypeScript

• Collaborated on data visualization projects

Projects

Data Visualization Dashboard

• Created interactive dashboards using React and D3.js

• Analyzed mathematical datasets with real-time visualization

Technologies: React, D3.js, Python

Statistical Analysis Tool

• Built web application for complex statistical analysis

• Performed research data analysis

Technologies: TypeScript, R, Shiny
